

Econovan

**A flat-floor
and no hungry
wheel arches.**

Ford Australia-We're moving with you.

Econovan. A flat-floor and no hungry wheel arches.

When you buy a van, you buy a lot more than just a vehicle. You buy a way of life. A way of life that's simple, practical, and easy. A way of life that's a lot like the way you live now. That's why the Econovan is designed with a flat floor and no hungry wheel arches. The Econovan offers you a lot more than just a van. It offers you a way of life. A way of life that's simple, practical, and easy. A way of life that's a lot like the way you live now. That's why the Econovan is designed with a flat floor and no hungry wheel arches.

hungry wheel arches.
 A straight-through floor can be easily loaded and unloaded. Look inside most other vans and you'll see how their floor arches for a flat floor. The Econovan's flat floor can be loaded and unloaded more easily. The Econovan's flat floor can be loaded and unloaded more easily. The Econovan's flat floor can be loaded and unloaded more easily.

wheel arches.
 The Econovan's flat floor can be loaded and unloaded more easily. The Econovan's flat floor can be loaded and unloaded more easily. The Econovan's flat floor can be loaded and unloaded more easily. The Econovan's flat floor can be loaded and unloaded more easily.

Stylish, good looking design.

From the front, Econovan is a handsome, modern-looking van. Its rounded front looks great as well as being functional and fuel efficient. And the latest Econovan is a style-setter too, with a bold, rounded grille in the familiar Ford family design language. Head park and indicator lamps are integrated into the grille for a more streamlined appearance. The deep front bumper gives added protection in parking. From the side, Econovan's angled front gives it a "going places" look, and there's plenty of space for your business name. From the rear, Econovan is pure function. The large lift-up door has a large window for ample rear vision and is supported by two gas-filled struts for easy one-handed operation. Note the grab-assist handles to make getting in or out easier.

More car-like in driving attitude.

Because the laminated windshield is more car-like when closed, the straight-up and down of boxier van design. The three-across seats feature perforated upholstery for air circulation. The front driver's seat has an integral seat lift for easy entry and exit. The instrument panel is now color binnade, switches, night re. Other shelf visor we fa

Econovan. A flat-floor and no hungry wheel arches.

When you buy a van, you buy it primarily for its load-carrying ability. Look for comfort, performance, durability and service back up all come a very close second. That's why Econovan is designed with a flat floor for well-to-well load space. In the long wheelbase 1-tonne models, Econovan offers you petrol-engined vans with or without side windows, a petrol-engined Econowagon 6-seater plus a diesel-powered van without side windows. In the short wheelbase 785kg payload models, Econovan offers you an all petrol-engine line-up, with or without windows as required, plus an Econowagon 6-seater. Whichever model you select, you'll find your driving and load-carrying needs well taken care of. It won't take you many kilometres to discover how good your Econovan or Econowagon is and how economical to operate.

Not aware of hungry wheel arches.

Econovan features a straight-through floor so goods can be easily loaded. Take a look inside most other vans in this class and see how their wheel arches eat hungrily into the load space. Now take a look inside Ford Econovan. No wheel arches for a flat floor. A well-stacked floor can load or unload a load more easily. The lift-up rear door plus a large side door make loading and unloading fast and easy.

Rear wheels are a secret.

With dual rear wheels hidden under the floor along, Ford Econovan has a flat-floor plus excellent grip and improved traction on all surfaces, especially

when more even wear on the road. Econovan has a Load Valve. This helps lock-up under heavy loads.

Stylish, good looking design.

From the front, Econovan is a sleek, modern van. The front grille, headlights and bumper are all designed to give the van a car-like appearance. The front grille is a distinctive feature, with a bold, curved design. The front bumper is integrated into the grille for a streamlined appearance. The deep front bumper gives added protection in parking. From the side, Econovan's angled front gives it a "glaring" look, and there's plenty of legroom space for your business needs. From the rear, Econovan is pure function. The large lift-up door has a large window for ample rear vision and is supported by two gas-filled struts for easy one-handed operation. Inside the grab-rod handles to make getting in and out easier.

More car-like in driving attitude.

Because the laminated wind deflector is more car-like when cornering, the driving feeling is more car-like when cornering. The three-across split features perforated for circulation. The high has an integral heater for the driver's seat and seat lift for easy. The instrument is now contained inside, as switches a night rest. Other a shelf, vision well fall.
